

PAINING & COATING RANGE

Protecting you for life's best moments.

rpb

Protecting you for life's best moments.

The everyday moments, the ones that make you smile, your drive in life.

Protecting you for life's best moments.

RPB Painting & Coating Range

At RPB, we seek to revolutionize how you experience your workday by creating respiratory protective equipment that makes you safer and more comfortable, which enables you to push the boundaries of your profession and get more out of your day.

In our mission to protect you for life's best moments, we've grown to become the commanding power in respiratory protection across heavy industries with over 40 years experience helping you to breathe better.

The RPB Painting and Coating range is the world's most advanced protection for industry professionals, consisting of supplied and powered air respirators, air monitoring and filtration systems and safety essentials. RPB takes care of your safety, so you can focus on the task at hand.

RPB® T-LINK® RESPIRATOR

Unrivalled respiratory protection.

The RPB T-Link has been designed to move with you, not against you. With your comfort and job our main focus, the T-Link transforms how you work, advancing your safety and increasing productivity.

Your ability to see has been at the forefront of our design process, with the T-Link boasting a large visor that enables you to easily connect with your surroundings. This is further supported by our Tychem® hood that securely attaches to the headtop, ensuring your downward and peripheral vision is never compromised. The soft breathable inner-bib and extra tuck-in collar ensures maximized comfort and helps to direct air down your body for cooling.

Fitted with a padded headliner and head suspension system, the headtop's weight is evenly distributed to enhance your experience of comfort, relieving you of aches and strains on your neck. Being fully adjustable ensures the respirator fits securely to all head sizes, maximizing stability and always moving with your head. Our innovative design ensures you have a greater range of movement, so you can focus on the task at hand.

The T-Link offers superior protection in all key areas:

Respiratory

Eye

Hearing

Face/Neck

Hard Hat/
Bump Cap

Protecting you for life's best moments.

Features & Benefits

Air flow and distribution is fully adjustable with the air deflector system to suit personal preference. ■

Padded headliner supports weight distribution while relieving you of the effects of any pressure points. ■

The optional Comfort-Link™ system provides extra comfort and stability providing optimum weight distribution.

Head suspension system can be adjusted for height and distance from the visor to support all head sizes and shapes. ■

Large viewing window for exceptional downward and peripheral vision. ■

Optically clear peel-off and cassette lenses available.

Optional ANSI Z87 approved safety lens (EN166). ■

Fixed lens frame ensures the lens will never hit your nose or optical aids being used. ■

■ Option of bump cap or ANSI Z89.1 hard hat protection (EN397).

■ Adjustable ratchet system ensures a customized fit that supports movement, while increasing comfort and productivity.

■ Breathing tube easily attaches to respirator and swivels to eliminate tangles. Centralized location ensures even weight distribution.

■ Two cape materials available: DuPont™ Tychem® 2000, DuPont™ Tychem® 4000.

All parts can be purchased individually for ease of maintenance and servicing.

■ Soft, breathable inner-bib and long tuck-in collar for extra protection and upper body air flow.

RPB® T200™ RESPIRATOR

Protection designed for movement.

The RPB T200 supports true freedom of movement in your application, allowing you to navigate your surroundings without any restrictions. Designed for function, comfort and durability, the T200 ensures your protection so you can focus on the job at hand.

Made for customization, the T200's head harness features multiple adjustment points, allowing you to change the fitting to suit the contours and shape of your head. Through the secure fit and streamlined framework, the T200 maximizes stability, relieving you of aches and strains on your neck and the effects of fatigue.

With the large clear visor, experience an uncompromised field of view, allowing for greater precision and accuracy with your work. The T200 also features an adjustable lens and air duct positioning to accommodate for different facial features and the use of prescription lens glasses.

Get more out of your role with respiratory protection that supports, not restricts you. Experience more with RPB.

The T200 offers superior protection in all key areas:

Respiratory

Eye

Face/Neck

Protecting you for life's best moments.

RPB® Z-LINK® RESPIRATOR

Ultimate versatility.

The RPB Z-Link provides you with ultimate versatility in your painting and coating environment. With unrivalled comfort, the Z-Link enhances your experience of protection and safety, while allowing you to do more in your role. The Z-Link is more than a respirator, it's part of the team.

The Z-Link's large visor design enables you to experience uncompromised downward and peripheral vision which enables you to clearly see your work, reducing the number of mistakes made and the need for rework. The Z-Link also combines a visor that hinges open so you can easily and quickly communicate with your team (as and when appropriate).

Equipped with a padded headliner and head suspension system, the Z-Link's weight is evenly distributed, relieving you of aches and strains on your neck and shoulders. Being fully adjustable ensures a customizable and secure fit for all head sizes, maximizing stability and ensuring the respirator always moves with your head. Our innovative design ensures you have an unrestricted range of movement, so you focus on your job at hand.

The Z-Link offers superior protection in all key areas:

Protecting you for life's best moments.

Features & Benefits

Padded interior with adjustable ratchet system ensures a perfect, customized fit that supports movement, increasing comfort and productivity. ■

The optional Comfort-Link™ system provides extra comfort and stability providing optimum weight distribution.

Air flow and distribution is fully adjustable with the air deflector system to suit personal preference. ■

Large viewing window for exceptional downward and peripheral vision. ■

Optional tear-off lenses are available to protect visor lens and to quickly clear your field of view.

ANSI Z87+ approved safety lens (EN166). ■

Multiple lens colors available.

Fixed jaw ensures the cape securely attaches. ■

■ ANSI Z89.1 certified hard hat (EN397).

■ Deconable head suspension system and disposable cape.

■ Visor hinges open for easy communication with the team (outside of respiratory hazards).

All parts can be purchased individually for ease of maintenance and servicing.

■ Two cape materials available: DuPont™ Tychem® 2000 or DuPont™ Tychem® 4000. Tychem® breathing tube cover available to increase the life of the breathing tube.

Welding visor, radiant heat visor and cape options are available for your Z-Link respirator so you can extend your product's capabilities in other applications.

POWERED AIR PX5® PAPR

Respiratory protection reimagined.

The RPB PX5 changes the way people experience clean filtered air across multiple industries – from medical and chemical settings, through to the profoundly harsh environments of foundries.

The PX5 is the result of years of product refinement, designed with new functional capabilities that increase performance while enhancing the way you experience comfort. The PX5 redefines what it means to be a powered air purifying respirator.

Boasting a robust yet compact design, the PX5 weighs just 2.55lbs (1.16kg) with the HEPA cartridge/filter fitted, and between 3.65lbs (1.65kg) and 3.75lbs (1.7kg) with a gas cartridge/filter fitted. With strategic weight distribution through its vertical mounting position and support from our flexi-belt system, the PX5 contours to your body to maximize comfort and stability.

Designed with sleek considered surfaces, and a quick release mount lock system for ease of decontamination, the PX5 is certified to IP65 rating in use and IP67 rating with cleaning kit in place.

*Weighed with standard battery installed.

Protecting you for life's best moments.

Features & Benefits

The PX5 weighs just 2.55lbs (1.16kg) with the HEPA cartridge/filter fitted, and between 3.65lbs (1.65kg) and 3.75lbs (1.7kg) with a gas cartridge/filter fitted. The sleek and compact design maximizes your experience of comfort through its strategic vertical mount position while contouring to your body with our flexi-belt system.

Visual, audible and vibrating alarms alert you when the battery level is low, or when airflow falls below the minimum requirements due to the filter needing replacing or when airflow is obstructed.

Intuitive LED user interface indicates airflow, fan speed and battery level.
Three fan speeds available.

The PX5 unit attaches to our flexi-belt system (fitted with the easy clean decon belt) via our intuitive mount lock system. The unit easily removes for a quick and simple decontamination process.

PAPER backpack assembly option available for applications that require a greater range of movement and work across varied angles.

Ingress Protection - With a completely sealed housing, the PX5 has been certified to IP65 rating in use and certified to IP67 rating with cleaning kit in place.

Cartridge/Filter Safety - The cartridge/filter door cannot mount to the unit unless the cartridge/filter is fixed in place.

HEPA cartridge/filter - removes up to 99.97% of particulates down to 0.12 microns.
Gas cartridge/filter - protects against organic vapor exposure.
Replace the pre-filter daily to extend the life of the main cartridge/filter.

Sealed inside the unit during operation, the long-life lithium-ion battery is protected from moisture when decontaminating and will not disconnect or bump off while operating.

POWERED AIR HX5™ PAPR

Simplifying your protection.

With the simple press of a button, experience clean filtered air in an instant as the HX5 removes up to 99.97% of particulates down to 0.12 microns from your breathing air - making the HX5 ideal across a wide range of applications.

Through its robust housing, the HX5 is able to withstand the physical demands of multiple applications, while incorporating sleek considered surfaces for ease of cleaning. With the HX5's vertical mounting positioning, this enhances your experience of comfort as this evenly distributes its weight to help relieve you of the effects of fatigue.

The HX5 simplifies your protection, so you can focus on the task at hand.

Features & Benefits

Weighing just 2.55lbs with the HE filter fitted, the sleek, lightweight and compact design maximizes your experience of comfort. Through vertical mounting, the HX5 contours to you and the flexi-belt system ensures its support.

Visual and audible alarms alert you when the battery level is low, or when airflow falls below the minimum requirements due to the filter needing replacing or when airflow is obstructed. **Fixed fan speed for ease of use.**

The HX5 unit attaches via our intuitive mount lock system, allowing the unit to be easily removed when wiped down for cleaning and decontamination purposes.

PAPER backpack assembly option available for applications that require a greater range of movement and work across varied angles.

Ingress protection – The HX5 is certified to IP53, allowing it to withstand dust and rainfall.

■ Cartridge/Filter Safety - The cartridge/filter door cannot mount to the unit unless a cartridge/filter is fixed in place.

■ HE filter removes up to 99.97% of particulates down to 0.12 microns. Replace the pre-filter daily to extend the life of the main cartridge/filter.

HEPA Cartridge/Filter

■ Sealed inside the unit during operation, the long-life lithium-ion battery is protected and will not disconnect or bump off while operating.

SUPPLIED AIR SOLUTIONS

Air monitoring, filtration, and supply.

Our supplied air and air monitoring range gives you the confidence that the air you breathe is safe.

Detecting toxic gases, filtering the air supply, and controlling supplied air temperatures helps to remove safety concerns and discomfort, enabling you to sustain a higher level of performance for longer. Experience the RPB difference with our supplied air and air monitoring range.

Features & Benefits C40™ Climate Control Device

The C40 heats and cools supplied air to suit your environment. Cool incoming air by up to 52°F (29°C) or heat it by up to 33°F (18°C) or any range in between simply by sliding the lever.

Made from lightweight, robust materials - weighs 11.6 oz. (329g), includes belt. ■

The C40 increases your safety and comfort, by keeping you at your optimum temperature, so you don't suffer heat exhaustion or chilling.

US Patent No. US 9,599,372.

■ Easily control your temperature with the slide of a lever.

■ Air inlet swivels 360° to sit comfortably on your hip.

■ Exhausted air is directed away from your body, eliminating the need for a heat shield.

Radex® Airline Filter

The Radex airline filter exceeds industry standards. With its large capacity 6-stage filter cartridge that removes moisture, odor and particulates you can be assured you and your team won't suffer the consequences of breathing contaminated air.

GX4® Gas Monitor

The GX4 gives you complete confidence that the air you and your team are breathing in is safe. Detecting up to four gases simultaneously (including, CO, O₂ & H₂S) while displaying in real time the air quality through any connected device.

RPB® RZ Fitting

The RZ fitting is proprietary to RPB and has been designed to be incompatible with any other fittings on the market. It will only connect to an RPB breathing air system, giving you peace of mind that the air you are breathing is safe.

WARNING

PRODUCT SELECTION

- 1. Determine what type of protection is required for your activity.** As applicable, check your workplace safety program, respiratory protection program, and standards and regulations for your activity or industry.
- 2. Check product specifications.** Contact RPB® or check the product instruction manual (downloadable from rpbsafety.com) for complete specifications, including approvals, standards, and regulations to which the product conforms.
- 3. Make sure you have a complete system.** Verify that you have or are purchasing all required components. System requirements are available from RPB® or in product instruction manuals.

Selecting inappropriate or incomplete equipment, including the use of counterfeit or non-RPB® parts, can result in inadequate protection and will void the NIOSH approval of the entire respirator.
