

Supplied Air GX4[®] Gas Monitor

Real-time air monitoring.

The GX4 gas monitor detects when there are harmful levels of toxic gases present near your breathing source.

Detecting up to four gases at once and displaying air quality readings in real time through its smart device and cloud integration capabilities, the GX4 gives you peace of mind knowing exactly what's in the air around you at all times.

Protecting you for life's best moments.

WARNING PRODUCT SELECTION

- 1. Determine what type of protection is required for your activity.** As applicable, check your workplace safety program, respiratory protection program, and standards and regulations for your activity or industry.
 - 2. Check product specifications.** Contact RPB® or check the product instruction manual (downloadable from rpbsafety.com) for complete specifications, including approvals, standards, and regulations to which the product conforms.
 - 3. Make sure you have a complete system.** Verify that you have or are purchasing all required components. System requirements are available from RPB® or in product instruction manuals.
- Selecting inappropriate or incomplete equipment, including the use of counterfeit or non-RPB® parts, can result in inadequate protection and will void the NIOSH approval of the entire respirator.**
