

POWERED AIR PX4 AIR® PAPR

Powered air purifying respirator.

The RPB PX4 Air is a robust and versatile powered air purifying respirator (PAPR) that provides safe, clean, breathable air, allowing you to focus on the job at hand.

With its ergonomic and lightweight design the PX4 Air contours to the lower back, distributing weight evenly while maximizing your comfort to reduce aches and fatigue. Through its portability, the PX4 air enables you to operate freely without the restrictions of attached airlines, allowing you to work in hazardous environments while ensuring your safety is always maintained.

Protecting you for life's best moments.

Features & Benefits PX4 AIR®

Without the use of fixed airlines, experience an unrestricted range of movement.

Ergonomically designed to contour the operators lower back.

Weighs only 2.5lbs (1.13kg).

Constant airflow supports regulating body temperature, moving heat away from the user.

Audible and vibrating alarm when flow is below the minimum requirements.

Long lasting battery life - up to 10 hours on a single charge.

All parts can be purchased individually for easy maintenance and servicing.

Three fan speed settings (low, medium & high) allow you to adjust incoming airflow to your personal preference and environments needs.

LED display shows battery life and fan speed.

Highly efficient filter cartridge provides maximum filtration.

Protecting you for life's best moments.

WARNING PRODUCT SELECTION

- 1. Determine what type of protection is required for your activity.** As applicable, check your workplace safety program, respiratory protection program, and standards and regulations for your activity or industry.
 - 2. Check product specifications.** Contact RPB® or check the product instruction manual (downloadable from rpb.com) for complete specifications, including approvals, standards, and regulations to which the product conforms.
 - 3. Make sure you have a complete system.** Verify that you have or are purchasing all required components. System requirements are available from RPB® or in product instruction manuals.
- Selecting inappropriate or incomplete equipment, including the use of counterfeit or non-RPB® parts, can result in inadequate protection and will void the NIOSH approval of the entire respirator.**
